Constant Voltage LED Power Supply

Product description:

This type of power supply is an exclusively designed stabilized power supply for LED lamp. With constant voltage (CV) technology, it is suitable for constant voltage lamps (24VDC) connected in parallels. The built-in protection circuit will shut down the power supply in case of such faults as: short circuit , over load or over temperature. The power supply will restart automatically after fault correction.

Standards:

EN61347-1 EN61347-2-13 EN61547 EN55015 EN61000-3-2 EN61000-3-3 EN62384 EN62493

Characteristics:

- Independent power supply for constant voltage LED lamp
- Terminal block input, terminal block and 5.5mm DC power jack output
- Class II protection against electric shock from direct and indirect contact
- SELV output
- Open circuit, short circuit, over load and over temperature protection
- Auto restart after fault conditions removal
- No load power consumption ${\leq}0.6{\rm W}$
- Efficiency: 87.7% (AC230V, full load)

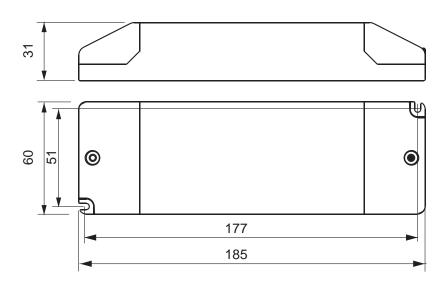

Specifications:

2. Note 3. rai 4. orn 5. Sir	 Tolerance:includes set up tolerance, line regulation and load regulation. Tested at full load,230Vac.Refer to"Power Factor^{III} and "EFFICIENT" curve graphs. Calculate the model's average efficiency for each test voltage by testing at 100%, 75%, 50%, and 25% of rated current and then computing the simple arithmetic erage of these four values. All parameters NOT specially mentioned are measured at nominal voltage input, rated load and 25 of ambient temperature. The power supply is considered as a component that will be operated in combination with final equipment. Since EMC performance will be affected by the complete installation, the final equipment manufacturers must re-qualify EMC Directive on the complete installation again.

Electrical curves:

note

For constant current power supply,"LOAD" means the percentage of the maximum rated output voltage. For constant voltage power supply,"LOAD" means the percentage of the maximum rated output current.

Sales & Technical Support:

Self Electronics Co.,Ltd.
